PORTFOLIO PLATFORM - SPRING 2026

INTERNATIONAL CALL FOR PHOTOGRAPHY PORTFOLIOS

ENTRY DEADLINE - JANUARY 10

FEATURE DATES - MARCH - MAY, 2026

Open to all photographers internationally.

The Portfolio Platform provides the opportunity for photographers to showcase a portfolio of photographic work prominently online at the Midwest Center for Photography website. Portfolio Platform provides the focus of a more streamlined online presence while we have shifted to more virtual gallery experiences.

The selected artists will have their portfolios available for visitors and patrons of the gallery to go online and view to learn about the artists and their work through the featured portfolio of images. Each featured artist will have a brief biography and artist statement accompanying their portfolio. Patrons can have the opportunity to purchase the artists photographs through the duration of the feature.

Each portfolio will consist of 10 - 20 images.

Selection will be based upon the thematic series of photographic work submitted by each artist rather than solely on individual images. A brief artist statement and bio are required.

Selected artists will have their work featured for a period of three months online.
