

CALL FOR PHOTOGRAPHY SUBMISSIONS

FLATLAND FEATURE - ISSUE 3

INTERNATIONAL CALL FOR PHOTOGRAPHY SERIES

ENTRY DEADLINE - DECEMBER 1

FEATURE DATES - JANUARY - JUNE, 2027

Open to all photographers internationally. Open to all photographic subject matter, genre and photographic media.

Flatland Feature is a new online feature presenting the best of the best photographers from the central plains region and beyond that showcases a series of photographers work in a slide show format as a virtual gallery experience.

The Flatland Feature provides a widespread opportunity to photographers who are creating work about this region or the multitude of other places, ideas and concepts.

With the Midwest Center for Photography being located in the flatlands of the Midwestern region, the name for the feature was chosen. This area located in the center of the U.S. is a launching spot to show photographers work from here in the flatlands to all directions via this online platform.

Each photographic feature consists of 10 - 20 images. Selected artists have their work featured for a period of six months online.
